TEXNET℠ Information Service

A special edition of The SOURCE℠ with many extra features designed specifically for users of the TI Home Computer.

More than 1,200 programs and services at your fingertips.

TEXNET℠ Information Service convenience, new knowledge

TEXNET is a special edition of The SOURCE,℠ an on-line, computer information and communication service developed by the nation's pioneer information utility: Source Telecomputing Corporation. It has been specifically designed to support many of the special features of The Texas Instruments Home Computer.

With TEXNET Information Service you have access to up-to-the-minute news and sports as well as specific feature articles; you can get a complete package of financial and business information including current stock quotes and portfolio management services.

The TEXNET Information Service offers over 1,200 different programs and includes a library of informative subjects, educational tools for children of all ages, electronic games, shop-at-home services, and much more.

You can check airline schedules, make hotel and airline reservations, take a French lesson or buy a refrigerator. As an on-line system, TEXNET service enhances your Texas Instruments Home Computer by giving you an ever-changing, ever-increasing data bank to draw from. Timely information like news, sports and stocks are always current; informative programs are always being up-dated, games and amusements are constantly being added.

TEXNET is service mark of Texas Instruments Incorporated

can bring new interests, new to everyone in your family.

Here are the special TI Home Computer services you'll receive.

TEXNET℠ Information Service was designed to help you get the most from your Texas Instruments Home Computer. You can exchange software with other users, get technical updates and find out about new products and announcements from Texas Instruments. You can access libraries for sound and music, as well as for color graphics. You can even listen to the UPI news with the addition of the optional Solid State Speech™ Synthesizer. Some of the special TEXNET services include:

TI News — An electronic newsletter with product and technical announcements from Texas Instruments.
TI Software Exchange — Software exchange of more than a hundred free programs.
TI Voice Chat — Spoken, interactive communication from other on-line users made possible by using the optional Solid State Speech™ Synthesizer.
TI Phonetic Dictionary — A growing library of over 2,000 entries; offers phonetic spelling of words which are helpful when programming with the "text-to-speech" feature of the Terminal Emulator II (sold separately by TI).
TI Help — How to use TEXNET.
TI Software Directory — A listing of the latest software available for the TI Home Computer.
TI User Group A nationwide listing of Texas Instruments user groups and who to contact.
TI Service Centers — Listing of locations for maintenance and repairs on Texas Instruments equipment.
TI Graphics Library — A constantly expanding graphics library that you can download or view.
TI Music and Sound Library — A library of musical scores and sounds available for use in your own programs.
TI Logo Exchange — Exchange for many LOGO procedures.
TI Submit — Enables TEXNET users to submit software programs electronically to any of TI's software exchanges, including the International 99/4 Users-Group, Inc.

The SOURCE is a service mark of Source Telecomputing Corporation, a subsidiary of The Reader's Digest Association, Inc.

The TEXNET℠ Information Service offers a truly remarkable range of more than 1,200 programs and services.

You get all the communications and information services provided by The SOURCE℠ — America's pioneer on-line computer utility.

UPI NEWS SERVICE — Get the latest news before it's printed. UPI sports and news can be on-line, exactly when you want it, within minutes after its release. Keyword search capability lets you extract stories of specific interest from news happening anywhere in the world.

ELECTRONIC MAIL — A sophisticated electronic message system that lets you communicate with other subscribers across the country with immediate delivery capability. Simple messages or lengthy reports can be transmitted quickly and economically.

ELECTRONIC TRAVEL SERVICE — You can make your own airline and hotel reservations electronically and charge them to your credit card. This service also gives a restaurant rating guide in major cities as well as domestic and international airline schedules.

EDUCATIONAL PROGRAMS — A variety of educational programs is available to help your children learn how to count, learn the alphabet, the decimal system and much more. They can use spelling and math drills, foreign language drills, and lessons in geometry, algebra and science.

CONSUMER AIDS — Informative features on how to reduce energy costs and save gasoline. You can use it to choose the right wines, or get information on vitamins, health care, or find a special recipe. You can even get a listing of toll-free numbers.

SPORTS NEWS — Up-to-the-minute news on sports, team standings, sports trivia, sports records.

PROGRAMMING POWER — Programming languages are available to anyone wishing to write his own programs or learn computer programming. BASIC and Fortran are at your disposal.

FINANCIAL SERVICE — Informative economic, business, and financial forecasts from professional economists and security analysts, updated weekly.

MARKET REPORTS — Quotations for stocks, bonds, commodities, treasury bills, foreign exchange rates, precious metals, mutual funds, options, and much more.

PORTFOLIO MANAGEMENT — A system to create and maintain your personal investment portfolio, retrieval of the stock market quotes of special interest to you.

INTERNATIONAL DOCUMENT RESEARCH — "Information on Demand." An information retrieval service that's fast and economical, carried out for a fee by professional researchers in key cities throughout the world. In effect, it gives you your own low-cost research department.

LEGI-SLATE* — Allows the tracking of bills referred out of Congressional Committees and lists members of Congress by state, party, committee and subcommittee, updated weekly. Includes ordering service for copies of legislation.

COMP-U-STAR* — This is an enhancement of the present BARGAINS program and allows subscribers to shop for more than 30,000 items, and to order them electronically at discount prices.

MANAGEMENT CONTENTS, LTD.* — Keyword search of abstracts from recent issues of 27 leading business journals, with ordering service for reprints.

COMMODITY NEWS SERVICE, INC.* — Tracks price movements in commodities futures markets and provides market commentary and commodity news with frequent updates while the market is trading.

MEDIA GENERAL* — 58 items of historical information on more than 3,000 NYSE, Amer, and OTC stocks to enable you to analyze your stock portfolio. Updated weekly.

*Value-added services available at an additional hourly cost.

The TEXNET℠ Information Service is easy to use ...

You can access the TEXNET Information Service with a minimum of additional equipment. You need only the Terminal Emulator II, RS-232 Interface* and the Telephone Coupler (Modem). Then when you want to use the TEXNET service you just dial a local number in over 350 cities, type in your private ID account number and type in your commands in plain English. You don't have to be a computer expert to use it, you can even program your own systems into TEXNET as easily as typing a letter.

*Or RS-232 Card and Peripheral Expansion Box.

... and economical.

TEXNET Information Service is available for an initial one-time subscription fee of $100. The user costs are remarkably low ... less than 13 cents per minute during evenings and weekends, 35 cents per minute during weekdays and about 10 cents per minute from midnight to 7 a.m. Usage Fees: $7.75/hour on weekends and evenings from 6 p.m. to midnight. $20.75/hour on weekdays from 7 a.m. to 6 p.m. $5.75/hour from midnight to 7 a.m. $10 minimum monthly charge.*

*Prices subject to change.
